Ambitions

I'd like to do more work as an extra, but I wouldn't mind various bigger roles as well. My ambition is also to show that even with a disability and not looking like "normal people" you can perform and act.

Micellaneous

My height (or lack of) is due to brittle bone disease which I'm born with. Due to this disability I use a wheelchair outdoors, but I mostly walk when I'm indoor.

I'm a positive person with humor, I'm creative, happy about challenges and love to travel and play music.
